

# Nellie R. Stevens Holly

## The Facts

Height: 15 - 25'

Spread: 8 - 12'

Sun: Full sun to part shade

Water: Medium

Soil: Well-drained

Growth Rate: Fast

These hollies are among the most popular for their rapid growth rate (almost 3 ft. per year), their deep green foliage and constant berry production. Because of its continual berry display, it provides interest in any landscape year-round. It can also be trained to grow as a small tree, providing a different look that is perfect for specimen planting along entrances and in shrub beds.

All of these traits provide the perfect pairings for wind and privacy screens. Not long after planting and establishment these hollies can thrive off of neglect, making them the perfect choice for an evergreen for whatever use you may need it for. You won't be disappointed!
