

# Blue Ice Arizona Cypress

## The Facts

Height: 30'  
Spread: 12'  
Sun: Full sun  
Water: Medium  
Soil: Well-drained  
Growth Rate: Fast

This native evergreen makes a dramatic focal point in any sunny location. Its intense powdery blue, scale-like needles that are soft to the touch and upright tight pyramidal form screams from far distances drawing the curious onlooker closer for a more detailed inspection. It produces chocolate brown globular cones. When mature, the exfoliating bark adds interesting texture to your landscape.

Blue Ice Arizona Cypress adds great color contrast and excitement to the landscape and is becoming more popular in the southern regions for year round color and screening potential.
